RAILROAD COMMISSION OF TEXAS
OFFICE OF GENERAL COUNSEL

OIL AND GAS DOCKET
NO. 01-0227261

IN THE LANGTRY (CANYON) FIELD,
VAL VERDE COUNTY, TEXAS

FINAL ORDER
APPROVING THE APPLICATION OF EEX E&P COMPANY LP
FOR NEW FIELD DESIGNATION AND ADOPTION OF FIELD RULES
FOR THE LANGTRY (CANYON) FIELD
VAL VERDE COUNTY, TEXAS

The Commission finds that after statutory notice in the above-numbered docket heard on February 21, 2001, the presiding examiner has made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas.

The Commission, after review and due consideration of the examiner's report and recommendation, the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.

Therefore, it is ORDERED by the Railroad Commission of Texas that the application of EEX E&P Company LP for a New Field Designation to be known as the Langtry (Canyon) Field (No. 51989 200), Val Verde County, Texas, be and it is hereby approved.

It is further ORDERED by the Railroad Commission of Texas that the following field rules be and are hereby adopted for the Langtry (Canyon) Field.

RULE 1: The entire correlative interval from 10,942 feet to 11,430 feet as shown on the gamma ray log of the Rio-Tex, Inc. Whitehead Lease (now EEX E&P Company, Inc. Whitehead "79" Lease) Well No. 1, Section 79, Block D, G.C. & S.F. RR Co. Survey, Val Verde County, Texas, shall be designated as a single reservoir for proration purposes and be designated as the Langtry (Canyon) Field.

RULE 2: The daily allowable production of gas from individual wells completed in a non-associated gas reservoir of the subject field shall be determined by allocating the allowable production, after deductions have been made for wells which are incapable of producing their gas allowables, among the individual wells in the following manner:
FIVE percent (5%) of the total field allowable shall be allocated equally among the individual proratable wells producing from this field.

NINETY-FIVE percent (95%) of the total field allowable shall be allocated among the individual wells in the proportion that the deliverability of such well, as evidenced by the most recent G-10 test filed with the Railroad Commission bears to the summation of the deliverability of all proratable wells producing from this field.

Done this sixth day of March, 2001.
