RAILROAD COMMISSION OF TEXAS  
OFFICE OF GENERAL COUNSEL  
HEARINGS SECTION  

OIL AND GAS DOCKET IN THE LA ESCALERA (SHALE) FIELD,  
NO. 08-0249624 PECOS COUNTY, TEXAS  

FINAL ORDER  
APPROVING THE APPLICATION OF PERTO-HUNT LLC  
FOR NEW FIELD DISCOVERY DESIGNATION AND FIELD RULES FOR THE  
LA ESCALERA (SHALE) FIELD, PECOS COUNTY, TEXAS  

The Commission finds that after statutory notice in the above-numbered docket heard on December 8, 2006, the presiding examiner has made and filed a report and recommendation containing findings of fact and conclusions of law, for which service was not required; that the proposed application is in compliance with all statutory requirements; and that this proceeding was duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas.  

The Commission, after review and due consideration of the examiner's report and recommendation, the findings of fact and conclusions of law contained therein, hereby adopts as its own the findings of fact and conclusions of law contained therein, and incorporates said findings of fact and conclusions of law as if fully set out and separately stated herein.  

Therefore, it is ordered by the Railroad Commission of Texas that the application of Petro-Hunt LLC for a new field discovery for the La Escalera (Shale) Field (RRC Field No. 50718-100), Pecos County, Texas be and hereby is approved.  

Therefore, it is ordered by the Railroad Commission of Texas that the following operating rules shall be adopted for the La Escalera (Shale) Field, Pecos County, Texas.  

RULE 1: The entire combined correlative interval from 15,613' to 16,120' TVD as shown on the Schlumberger Platform Express Density/Neutron Final Composite Array Induction/High resolution Laterolog Array/MCL log of the Petro-Hunt LLC, La Escalera 45 Lease Well No. 1 (API No. 42-371-37570), Sect. 45, Blk B, GC & SF RR Co. Survey, A-2819, Pecos County, Texas, shall be designated as a single reservoir for proration purposes and be designated as the La Escalera (Shale) Field.  

RULE 2: The daily allowable production of gas from individual wells completed in a non-associated gas reservoir of the subject field shall be determined by allocating the allowable production, after deductions have been made for wells which are incapable of producing their gas allowables, among the individual wells in the following manner:  

TWENTY-FIVE percent (25%) of the total field allowable shall be allocated equally among the proratable wells in the field.  
SEVENTY-FIVE percent (75%) of the total field allowable shall be allocated among the
individual wells in the proportion that the deliverability of such well, as evidenced by the most recent G-10 test filed with the Railroad Commission bears to the summation of the deliverability of all proratable wells producing from this field.

Further, it is ordered by the Railroad Commission of Texas that suspension of the allocation formula in the La Escalera (Shale) Field is approved. The allocation formula may be reinstated administratively if the market demand for gas in the La Escalera (Shale) Field drops below 100% of deliverability. If the market demand for gas in the La Escalera (Shale) Field drops below 100% of deliverability while the allocation formula is suspended, the operator shall immediately notify the Commission and the allocation formula shall be immediately reinstated. Failure to give such notice to the Commission may result in a fine (as provided for in Tex. Nat. Res. Code §86.222) for each day the operators fail to give notice to the Commission.

Done the 10th day of January, 2007.

RAILROAD COMMISSION OF TEXAS
(Order approved and signatures affixed by OGC Unprotested Master Order dated January 10, 2007)
