

**RAILROAD COMMISSION OF TEXAS
OFFICE OF GENERAL COUNSEL
OIL AND GAS SECTION**

OIL AND GAS DOCKET NO. 08-0223301

ENFORCEMENT ACTION FOR ALLEGED VIOLATIONS COMMITTED BY GONZALO ARROYO, SOLE PROPRIETOR, ARROYO OIL CO. (033626), AS TO THE OLIX (24230) LEASE, WELL NO. 1, THUNDERBIRD (DEVONIAN) FIELD, PECOS COUNTY, TEXAS

FINAL ORDER

The Commission finds that after statutory notice the captioned enforcement proceeding was heard by the examiner on April 27, 2000 and that the respondent, Gonzalo Arroyo, Sole Proprietor, Arroyo Oil Co. (033626), failed to appear or respond to the notice. Pursuant to § 1.49 of the Commission's General Rules of Practice and Procedure [Tex. R. R. Comm'n, 16 TEX. ADMIN. CODE § 1.49] and after being duly submitted to the Railroad Commission of Texas at conference held in its offices in Austin, Texas, the Commission makes the following findings of fact and conclusions of law.

FINDINGS OF FACT

1. Gonzalo Arroyo, Sole Proprietor, Arroyo Oil Co. (033626), ("respondent") was given Notice of Opportunity for Hearing by certified mail, addressed to the most recent P-5 address on the Form P-5 (Organization Report) address, which was returned to the Commission marked "unclaimed."
2. The returned certified receipt containing the Original Complaint and the Notice of Opportunity for Hearing, was returned to the Commission marked "unclaimed" on April 11, 2000. The certified receipt has been on file with the Commission for 15 days, exclusive of the day of receipt and day of issuance.
3. Respondent designated itself to the Commission as the operator of Well No. 1 on the Olix (24230) Lease ("subject well"/"subject lease") by filing a Form P-4 (Producer's Transportation Authority and Certificate of Compliance), with the Commission effective on January 1, 1998.
4. The subject well has been dry or inactive for a period in excess of one year. Commission inspection and/or production reports indicate that the subject well ceased production on or before May 31, 1998.
5. The subject well has not been properly plugged in accordance with, and is not otherwise in compliance with, Statewide Rule 14.

OIL AND GAS DOCKET NO. 08-0223301

6. Usable quality water in the area is likely to be contaminated by migrations or discharges of saltwater and other oil and gas wastes from the subject well. Unplugged wellbores constitute a cognizable threat to public health and safety because of the probability of pollution.
7. The estimated cost to the State of plugging the subject well is \$13,100.00.
8. Commission district office inspections were conducted on August 11, 1998, September 25, 1998, November 5, 1998, December 4, 1998, February 2, 1999, May 7, 1999, June 22, 1999, August 18, 1999, September 7, 1999 and November 5, 1999 for the Olix (24230) Lease. Respondent has not backfilled a pit measuring approximately 90' x 15' x 4' near Well No. 1. According to Commission records the well was completed on October 1, 1976. Also, according to the aforementioned inspection reports, there were no workover operations being conducted on the well between August 1998 and November 1999.
9. Unfilled pits constitute a hazard to public health and safety because of the potential for illegal dumping in the pits and the potential for surface run-off to collect in the pit and seep into subsurface waters.
10. The respondent has not demonstrated good faith since it failed to plug or otherwise place the subject well and the subject lease in compliance after being notified of the violations by the District Office and failed to appear at the hearing to explain its inaction.

CONCLUSIONS OF LAW

1. Proper notice was issued by the Railroad Commission to respondent and all other appropriate persons legally entitled to notice.
2. All things necessary to the Commission attaining jurisdiction over the subject matter and the parties in this hearing have been performed or have occurred
3. Respondent is in violation of Commission Statewide Rules 8(d)(4)(G)(i)(III) and 14(b)(2).
4. Respondent is responsible for maintaining the subject lease in compliance with Rule 8(d)(4)(G)(i)(III), which requires workover pits to be dewatered, filled and compacted within 120 days from completion of workover operations.
5. Respondent is responsible for maintaining the subject well and the subject lease in compliance with all applicable Statutes and Commission rules, specifically Statewide Rules 14, 58, and 79 and Chapters 89 and 91, Texas Natural Resources Code.
6. The documented violations committed by the respondent constitute acts deemed serious, a hazard to the public health, and demonstrate a lack of good faith pursuant to TEX. NAT. RES. CODE ANN. §81.0531(c) (Vernon 1993).
