APPLICATION OF ATMOS PIPELINE - TEXAS FOR 2014 TEST YEAR ANNUAL INTERIM RATE ADJUSTMENT FILING	§ § § §	GAS UTILITIES DOCKET NO. 10422
---	------------------	---

INTERIM RATE ADJUSTMENT ORDER

Notice of Open Meeting to consider this Order was duly posted with the Secretary of State within the time period provided by law pursuant to TEX. GOV'T CODE ANN. Chapter 551 (Vernon 2010). The Railroad Commission of Texas adopts the following findings of fact and conclusions of law and orders as follows:

FINDINGS OF FACT

Background

1. Atmos Energy Corporation (Atmos) is a "gas utility," as that term is defined in the TEXAS UTILITY CODE, and is subject to the jurisdiction of the Railroad Commission of Texas (Commission).
2. Atmos Pipeline - Texas (Atmos PT), a division of Atmos, owns and operates a gas pipeline transportation system.
3. On February 13, 2015, Atmos PT filed an application for an annual interim rate adjustment (IRA) applicable to customers located on Atmos PT's system.
4. Atmos PT requested that the IRA for all customer classes become effective on April 14, 2015.
5. On February 17, 2015, the Commission suspended implementation of Atmos PT's proposed IRA until May 29, 2015, which is 45 days following the 60th day after the application's original effective date..
6. Neither TEXAS UTILITIES CODE, §104.301 nor 16 TEX. ADMIN. CODE, §7.7101 provide the opportunity for parties to intervene in the Commission's review of an application for an annual IRA.
7. 16 TEX. ADMIN. CODE, §7.7101 allows written comments or a protest, concerning the proposed IRA, to be filed with the Gas Services Division.

8. No letters of protests have been received as of the date of this order.
9. This docket represents the fifth annual IRA for Atmos PT since GUD No. 10000.
10. GUD No. 10078 was the first annual IRA, GUD No. 10144 was the second annual IRA, GUD No. 10240 was the third annual IRA, and GUD No. 10338 was the fourth annual IRA for Atmos PT since GUD No. 10000.
11. Until promulgation of TEXAS UTILITIES CODE, §104.301, a utility could not increase its rates subject to the Commission's jurisdiction without filing with the Commission a formal statement of intent rate case, including a comprehensive cost of service rate review.
12. The proposed IRA will allow Atmos PT an opportunity to recover, subject to refund, a return on investment, depreciation expense, and related taxes on the incremental cost of infrastructure investment since its last rate case, without the necessity of filing a statement of intent rate case and without review by the Commission of Atmos PT's comprehensive cost of service.

Applicability

13. This docket applies to those rates set in GUD 10000 over which the Commission has original jurisdiction.
14. Atmos PT negotiated rate customers are not allocated any of the interim rate adjustment amounts, consistent with the rate design approved in GUD 10000.

Most Recent Comprehensive Rate Case

15. Atmos PT's most recent rate case for the area in which the IRA will be implemented is GUD No. 10000, *Statement of Intent to Change the Rate CGS and Rate PT Rates of Atmos Pipeline - Texas*.
16. GUD No. 10000 was filed on September 17, 2010.
17. The data used in GUD No. 10000 was based on a test-year ending March 31, 2010.
18. The Commission signed the GUD No. 10000 Final Order on April 18, 2011 and the rates became effective the same day.
19. A Nunc Pro Tunc Order was signed on June 27, 2011. Motions for rehearing were denied on June 27, 2011.

20. The following chart shows the factors that were established in GUD No. 10000 to calculate the return on investment, depreciation expense, and incremental federal income taxes for Atmos PT:

Rate of Return	9.362%
Depreciation Rate	2.536%
Depreciation Rate - SSU	9.067%
Federal Income Tax Rate	35%

21. The following chart shows the allocation factors that were established in GUD No. 10000 to allocate the interim rate adjustment amount to the customer classes:

Customer Class	Allocation Factor
Rate CGS (City Gate Service)	0.975869
Rate PT (Pipeline Transportation)	0.024131

Interim Rate Adjustment

22. Atmos PT seeks approval from the Commission for an adjustment to its revenue, as per 16 TEX. ADMIN. CODE, §7.7101, based on incremental net utility plant investment, with regard to the following components: return on investment; depreciation expense; ad valorem taxes; revenue related taxes; and federal income taxes as shown in Exhibit B.
23. The revenue amounts to be recovered through the proposed annual IRA for Atmos PT are incremental to the revenue requirement established in the most recent rate case for Atmos PT for the area in which the IRA is to be implemented, GUD No. 10000, as adjusted.
24. Atmos PT calculated and presented all incremental values for investment, accumulated depreciation, return on investment, depreciation expense, ad valorem taxes, and incremental federal income taxes for the twelve-months ended December 31, 2014. Revenue related taxes are not included in Atmos PT's calculation of the IRA. An existing rate schedule that was established by the Final Order in GUD No. 10000 is applied to all revenues, including revenues that result from an IRA.
25. For the first IRA following a rate case, the amounts by which Atmos PT may adjust its rates are based on the difference between Atmos PT's invested capital at the end of the most recent rate case test-year (March 31, 2010) and the invested capital at the end of the calendar-year following the end of the most recent rate case test-year (December 31, 2010).
26. Each IRA following the first IRA, is based on the difference between Atmos PT's invested capital at the end of the calendar test-year determined in the previous IRA filing and the invested capital at the end of the subsequent calendar-year.

27. The value of Atmos PT's invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment.
28. Atmos PT is required to use the same factors to calculate the interim return on investment, depreciation expense, and incremental federal income tax as those established or used in the final order setting rates for Atmos PT in the most recent rate case for the area in which the IRA is to be implemented.
29. Atmos PT filed the Commission's Annual Earnings Monitoring Report (EMR) as required by 16 TEXAS ADMINISTRATIVE CODE §7.7101. The Company's actual rate of return is 9.492%, which is less than 75 basis points in excess of the 9.362% allowed rate of return established in GUD No. 10000.
30. Atmos PT filed its Annual Project Report as required by 16 TEXAS ADMINISTRATIVE CODE §7.7101.
 1. Gross Pipeline Additions totaled \$246,380,047
 2. Pipeline Retirements totaled \$12,975,168
 3. Gross SSU Additions totaled \$3,645,816
 4. SSU Retirements totaled \$483,590
31. Atmos PT Net Utility Plant Investment is calculated on the following as required by 16 TEXAS ADMINISTRATIVE CODE §7.7101.
 1. Net change in Atmos PT Utility Plant Investment - \$233,404,879
 2. Net change in Atmos PT Accumulated Depreciation - \$24,054,441
 3. Net change in allocated Atmos SSU Utility Plant Investment - \$3,326,347
 4. Net change in allocated Atmos SSU Accumulated Depreciation - \$3,741,814
 5. Net change in Utility Plant Investment -\$208,474,512
 6. Safety-related improvements/infrastructure projects totaled \$ 107,917,346 or 43.8% of total additions.
 7. Integrity testing projects totaled \$69,704,712 or 28.3% of total additions.
32. Atmos PT is required to allocate the revenue to be collected through the IRA among its customer classes in the same manner as the cost of service was allocated among its customer classes in its most recent rate case for the area in which the IRA is to be implemented.
33. Atmos PT proposed the IRA as a flat rate to be applied to the monthly Capacity Charge per Maximum Daily Quantity (MDQ) rather than to the usage rate.
34. Atmos PT is required to show its annual IRA on its customers' monthly billing statements as a surcharge.

35. The proposed IRA does not require an evidentiary proceeding; rather, TEXAS UTILITIES CODE, §104.301 and 16 TEX. ADMIN. CODE, §7.7101 require the regulatory authority to review a utility's method of calculating the IRA.
36. Due process protections are deferred until Atmos PT files its next full statement of intent rate case.

Notice

37. The Company provided adequate notice to Atmos PT's City Gate Service (CGS) customers on February 17, 2015.
38. The Company provided adequate notice to Atmos PT's Pipeline Transportation (PT) customers on February 17, 2015.

Comprehensive Rate Case Required

39. The Company is not required to initiate a rate case supporting a statement of intent, at the time it applies for an IRA.
40. Under 16 TEX. ADMIN. CODE, §7.7101(l) a gas utility that implements an IRA and does not file a rate case before the fifth anniversary of the date its initial IRA became effective is required to file a rate case not later than the 180th day after that anniversary. Atmos PT is required to file a statement of intent rate case not later than January 23, 2017.

Review of Interim Rate Adjustment

41. Atmos PT presented its IRA calculation using the factors approved in GUD No. 10000 for rate of return, depreciation, and federal income tax, but using a property-related taxes (Ad Valorem) percentage of 2.305% based on the estimated 2014 taxes paid by the Company.¹
42. Atmos PT's IRA, as adjusted, is \$37,248,185 based on an incremental net utility plant investment increase of \$208,474,512 using the property-related taxes (Ad Valorem) percentage of 2.305% based on the estimated 2014 taxes paid by the Atmos PT.
43. Atmos PT's proposed allocation methodology complies with TEXAS UTILITIES CODE, §104.301, and 16 TEX. ADMIN. CODE, §7.7101.

1. 16 TEX. ADMIN. CODE §7.7101(f)(5) only refers to the return on investment, depreciation expense, and incremental federal income tax factors from the most recent rate case to calculate the IRA. The Ad Valorem taxes are not specifically designated as a factor that must remain constant. In Atmos' last statement of intent rate case (GUD No. 10000), Ad Valorem taxes were reconciled between the estimate used in the IRAs and actual Ad Valorem taxes paid.

44. Atmos PT's proposed 2014 Year-ended Maximum Daily Quantity (MDQ) complies with TEXAS UTILITIES CODE, §104.301, and 16 TEX. ADMIN. CODE, §7.7101.
45. For calculating the change in the Capacity Charge per year, it is reasonable for the Commission to approve use of Atmos PT's 2014 Year-ended Maximum Daily Quantity (MDQ) times 12. The following total Maximum Daily Quantity (MDQ) used in the calculation of the IRA are reasonable:

Customer Class	Total Maximum Daily Quantity (MDQ)
Rate CGS (City Gate Service)	33,062,664
Rate PT (Pipeline Transportation)	1,900,620

46. The resulting interim rate adjustment for Rate CGS (City Gate Service) and Rate PT (Pipeline Transportation) is shown in Exhibit A and as follows:

Rate Schedule	Capacity Charge Per MDQ GUD No. 10000	2010 IRA GUD No. 10078	2011 IRA GUD No. 10144	2012 IRA GUD No. 10240	2013 IRA GUD No. 10338	2014 IRA GUD No. 10422	2014 Capacity Charge Per MDQ
Rate CGS – Mid-Tex ¹	\$4.6179	\$0.4036	\$0.4691	\$0.8507	\$1.3701	\$1.0994	\$ 8.8108
Rate CGS – Other ²	\$3.8045	\$0.4036	\$0.4691	\$0.8507	\$1.3701	\$1.0994	\$ 7.9974
Rate PT ³	\$2.4026	\$0.2454	\$0.2513	\$0.3731	\$0.5932	\$0.4729	\$ 4.3385

Reimbursements of Expense

47. As provided for in the statute and the rule, a gas utility that implements an IRA is required to reimburse the Commission for the utility's proportionate share of the Commission's annual costs related to the administration of the IRA mechanism.
48. After the Commission has made final action on Atmos PT's application for an IRA, the Director of the Oversight and Safety Division will estimate Atmos PT's proportionate share of the Commission's annual costs related to the processing of such applications.

1 Included in the Capacity Charge per MDQ for CGS – Mid-Tex is the annual Rider REV adjustment of \$0.1782 per MDQ and the Capacity Charge related to Mid-Tex working gas in storage of \$ 0.8134 per MDQ.

2 Included in the Capacity Charge per MDQ for CGS – Other is the annual Rider REV adjustment of \$0.1782 per MDQ. There is no working gas in storage fee for CGS – Other.

3 Included in the Capacity Charge per MDQ for PT is the annual Rider REV adjustment of \$0.0965 per MDQ. There is no working gas in storage fee for PT.

49. In making the estimate of Atmos PT's proportionate share of the Commission's annual costs related to the processing of such applications, the Director will take into account the number of utilities the Commission reasonably expects to file for IRAs during the fiscal year, and the costs expected to be incurred in processing such applications.
50. Atmos PT is required to reimburse the Commission for the amount determined by the Director of the Oversight and Safety Division, within thirty days after receipt of notice of the amount of the reimbursement.

APPLICABLE TO:	Entire System	
EFFECTIVE DATE:		

Rider REV: Plus an amount per MMBtu in accordance with Rider REV as an adjustment to the Capacity Charge per MMBtu of MDQ.

Imbalance Fees

All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees

Customer shall pay Company the greater of (i) \$0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest "midpoint" price for the Katy point listed in *Platts Gas Daily* in the table entitled "Daily Price Survey" during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Curtailment Overpull Fee

Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in *Platts Gas Daily* published for the applicable Gas Day in the table entitled "Daily Price Survey."

Replacement Index

In the event the "midpoint" or "common" price for the Katy point listed in *Platts Gas Daily* in the table entitled "Daily Price Survey" is no longer published, Company will calculate the applicable Imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

MDQ Adjustment

If a Customer's daily usage on any day exceeds the Customer's MDQ as set forth in the applicable Transportation Agreement by 10% or more, the Customer's MDQ shall be increased to equal such daily usage. The effective date of such increase in the MDQ shall be the first day of the calendar month that begins following the day on which the Customer's daily usage exceeded the Customer's MDQ.

Agreement
