Amend §3.86 and other rules re: UFT fields

Amend §3.86 and other rules re: UFT fields

I would like to echo the comments of my colleagues made above and urge the RRC to modify it's proposed language to require that any/all plats made to show real property boundary lines be prepared and signed by a Registered Professional Land Surveyor. Errors in well placement and acreage calculation create tremendous problems for mineral owners and lessees.

John W. Denney
