Amend §3.86 and other rules re: UFT fields

Amend §3.86 and other rules re: UFT fields

(6) Plat requirements. All plats required by this section shall be prepared using blue or black ink and shall include a certification by a professional land surveyor registered in accordance with the Texas Occupation Code Chapter 1071, relating to land surveyors, or by a registered professional engineer registered in accordance with the Texas Occupation Code 1001, relating to engineers.

The portion "or by a registered professional engineer registered in accordance with the Texas Occupation Code 1001, relating to professional engineers" should be delated from the proposed rule change. An Engineer is precluded from engaging in survey work related to boundary of real property by the Texas Occupation Code Chapter 1011 and a Registered Professional Land Surveyor or Licensed State Land Surveyor are the only ones permitted under Texas Law to establish a real property boundary.

We respectfully request that this portion be removed from the language of the proposed amendment.
