

**RAILROAD COMMISSION OF TEXAS
Oil and Gas Division**

NOTICE TO OIL AND GAS WELL OPERATORS

**ELIMINATION OF MAILING INDIVIDUAL PAPER
FORM H-10
ANNUAL DISPOSAL/INJECTION WELL
MONITORING REPORT**

Effective April 2011, the Railroad Commission will no longer print and mail the paper Form H-10 to operators, in place of the pre-printed forms the Commission will mail a listing of H-10 filings that will be due in the near future. The elimination of mailing individual Form H-10's will increase efficiencies within the Commission.

You may file H-10's electronically (Online or EDI) at <https://webapps.rrc.state.tx.us/security/login.do>. To establish a login an operator must file the [Security Administrator Designation \(SAD\) Form](#) with the Commission. If you already have a designated Security Administrator, the Security Administrator must assign the appropriate filing rights to each user to enable them to access the Form H-10 filing system, (click [here](#) for instructions).

If you prefer to file on paper the blank H-10 form(s) may be printed individually at <http://webapps.rrc.state.tx.us/H10/h10PublicMain.do>. Choose Search for H-10 query, an individual well can be searched by Operator, District, Lease, Well Number, API Number or UIC Number, to select a due date "click" on the Well Number. Use the "View Blank H10" box (bottom of page) to print an individual Form H-10.

Commission statistics indicate over 80% of the estimated 45,000 completed H-10 forms received annually are filed using either our on-line filing or EDI systems.

If you have questions about this change, please contact Injection-Storage Permits and Support Section at 512-463-6792 or e-mail H10info@rrc.state.tx.us.
