RE: Informal Comment on Revised Version of Proposed Rule 13 (16 TAC 3.13, relating to Casing, Cementing, Drilling, and Completion Requirements)

Dear Ms. Larson:

You should be receiving a letter with additional comments and detailed suggestions from Mr. Jerry Treybig of Boerne, TX prior to the April 1 deadline for the end of the public comment period on the revised version of proposed rule 13 relating to casing, cementing, drilling and completion requirements. I would like to suggest on behalf of the Texas Land and Mineral Owners Association (TLMA), that we wholly support Mr. Treybig's efforts and hope you will carefully consider his contribution. TLMA is a statewide association made up of over 1,200 land and mineral owners – our primary objective is to see that minerals are drawn from the ground in a manner that provides the most return to royalty owners while at the same time respecting private property rights.

Again, thank you for the opportunity to comment. If we can be of any further assistance or provide any additional resource material, please do not hesitate contact me. TLMA looks forward to working with you and the rest of the Railroad Commission throughout 2013.

Sincerely,

Kitty-Sue Quinn, Ph.D.
Executive Director
